

These carts are too close together.

These carts are too close together.

Be sure the carts are not in the roadway, as they would create a hazard to vehicles travelling along the road and also put the carts at risk of being struck by a snowplow.

Consider clearing out a section of your snowbank to allow room for both carts to be on one side of driveway.

Consider clearing out a section of your snowbank to allow room for both carts to be on one side of driveway. Be sure there is still enough room (4 - 5 feet) between the carts.

Consider clearing out a section of your snowbank to allow room for both carts to be on one side of driveway.

Preferred Placement of Carts
(on either side of driveway)
