The Department of Planning and Development of the Village of Weston, pursuant to the Village of Weston Zoning Code, Article 16 Processes, Section 94.16.03 Amendments to the Official Zoning Map (Rezoning), hereby makes the following findings and evaluation to the Village of Weston Plan Commission:

GENERAL INFORMATION:

Current Zoning: **LI – Limited Industrial**
Definition: 94.2.02(3)(f) The LI district accommodates primarily light industrial, storage, office, and other compatible businesses and support uses. Allowable uses are geared toward activities which are not associated with high levels of noise, odor, particulate emissions, outdoor activities, and other potential nuisances. Development within this district is served by public sanitary sewer and water services. This district is intended for mapping in areas planned for industrial uses within the Comprehensive Plan. (Predecessor district: LMD Light Manufacturing Distribution)

Proposed Zoning **GI – General Industrial**
Definition: 94.2.02(3)(g) The GI district accommodates a range of manufacturing, assembling, fabrication and processing, bulk handling, storage, warehousing, trucking, and utility uses. The uses associated with this district may have significant off-site impacts such as heavy truck traffic, noise, and odors. Development within this district is served by public sanitary sewer and water services. This district is intended for mapping in limited areas planned for industrial uses within the Comprehensive Plan, at the Village’s discretion. (Predecessor district: M1 Manufacturing and warehousing)

Future Land Use: **Industrial**
FLU Description: Industrial, storage, office, and other compatible businesses and support uses, all served by a public sewer system. Certain areas may be appropriate for a broader range of manufacturing, assembling, fabrication and processing, bulk handling, storage, warehousing, trucking, and utility uses with significant off-site impacts such as heavy truck traffic, noise, and odors. Served by a public sewer system.

Development Policies:

- 1. Require performance standards as necessary to avoid placing excessive demand on municipal utilities and roads, or creating environmental hazards or unwanted neighborhood impacts.**
- 2. Meet design requirements in the zoning ordinance.**
- 3. Encourage relocation of older industrial uses that have outgrown their sites or that are located in residential areas to a modern Industrial area.**

Typical Implemented Zoning Districts:

LI Limited Industrial (where narrower range of industry/impacts preferred), GI General Industrial (where wider range of industry/impacts acceptable), or B-3 General Business (for mix of light industrial and commercial uses).

1. Is the proposed rezoning consistent with the Comprehensive Plan, as is required by Wisconsin Statutes?

Yes, the proposed zoning change is still within the non-residential and mixed use districts zoning category, which fits within the future industrial category as defined in the Comprehensive Plan.

2. Does the rezoning further the purpose and intent of this Chapter?

Yes.

3. Does rezoning address any of the following that are not properly addressed on the current Official Zoning Map?

1. A mistake was made in mapping on the Official Zoning Map. That is, an area is or has developed in a manner and purpose different from that for which it is mapped. If this reason is cited, it must be demonstrated that the discussed inconsistency between actual land use and designated zoning is not intended, as the Village may intend to stop an undesirable land use pattern from being perpetuated.
2. Factors have changed, such as the availability of new data, the presence of new roads or other infrastructure, additional development, annexation, or other zoning changes, making the subject property more appropriate for a different zoning district.
3. Growth patterns or rates have changed, thereby creating the need for a rezoning.

No.

4. Does the proposed zoning district maintain the desired consistency of land uses, land use intensities, and land use impacts as related to the environs of the subject property?

Yes. This rezone will not affect the density of development.

BACKGROUND INFORMATION:

Mr. Worden is looking to purchase 8008 Technology Drive from Cindy Wittke to move his Landscaping business from Ringle to this location. He is also discussing purchasing a 135'X 151' (20,385 sq ft) parcel to the east that would come from part of a stormwater outlot the Village owns. This property, if purchased, would be rezoned to GI by the Village and attached by Mr. Worden to the 8008 Technology Drive parcel via a later CSM. It would be used by Mr. Worden to put an expansion on the existing building at 8008 Technology Dr. He is requesting the GI zoning classification to avoid having to do a conditional use at the time he wishes to complete the building addition.

CURRENT PROPERTY CONDITIONS:

PLAN COMMISSION ACTION OPTIONS: (Process is outlined in Sec. 94.16.03(6))

- 1) Plan Commission recommends approval of the rezone request and forwards the recommendation on to the Village Board at their 6/19/17 meeting.

- 3) Plan Commission recommends denial of the rezone request and forwards the recommendation on to the Village Board at their 6/19/17 meeting.
- 4) Plan Commission takes no action and the request moves on to the Village Board at their 6/19/17 meeting with no recommendation.

PLAN COMMISSION ACTION:

The Plan Commission chose option 1) above recommending approval of the rezone request to the Village Board.

Plan Commission Determination on 6/12/17: Approve 7-0

Rezone Permit Application
8008 Technology Dr. , Weston Business Park

Applicant:

WRJ Properties, LLC
Randy Worden
R750 Hines Road
Ringel, WI 54471

Property Owner:
Wyndam Properties, LLC
Cynthia Wittke

Cindy Wittke the property owner has been trying to sell her property since 2013 after her husband passed-away and their business plans changed. The 4,000 sq.ft building which they purchased from the original owner was finished with nearly all office space and very little actual warehouse area which served their needs. That configuration has proven to make it very difficult to find a buyer since most parties wanted a smaller percentage of finished office space and more warehouse or shop space and could not justify the purchase price (even discounted) and having to pay to remove unneeded finished space. Also the market place only presented one potential straight office prospect over a number of years of marketing.

With the property now having an accepted offer to purchase with a qualified Buyer we are contingent upon the zoning change to accommodate the Buyers business operational needs. The zoning change seems to be a reasonable request since adjoining property and much of the surrounding property is zoned GI which is our need and request.

The business is Worden Enterprises, LLC a Landscaping and related service firm who would move its operating company from Ringle WI to Weston.

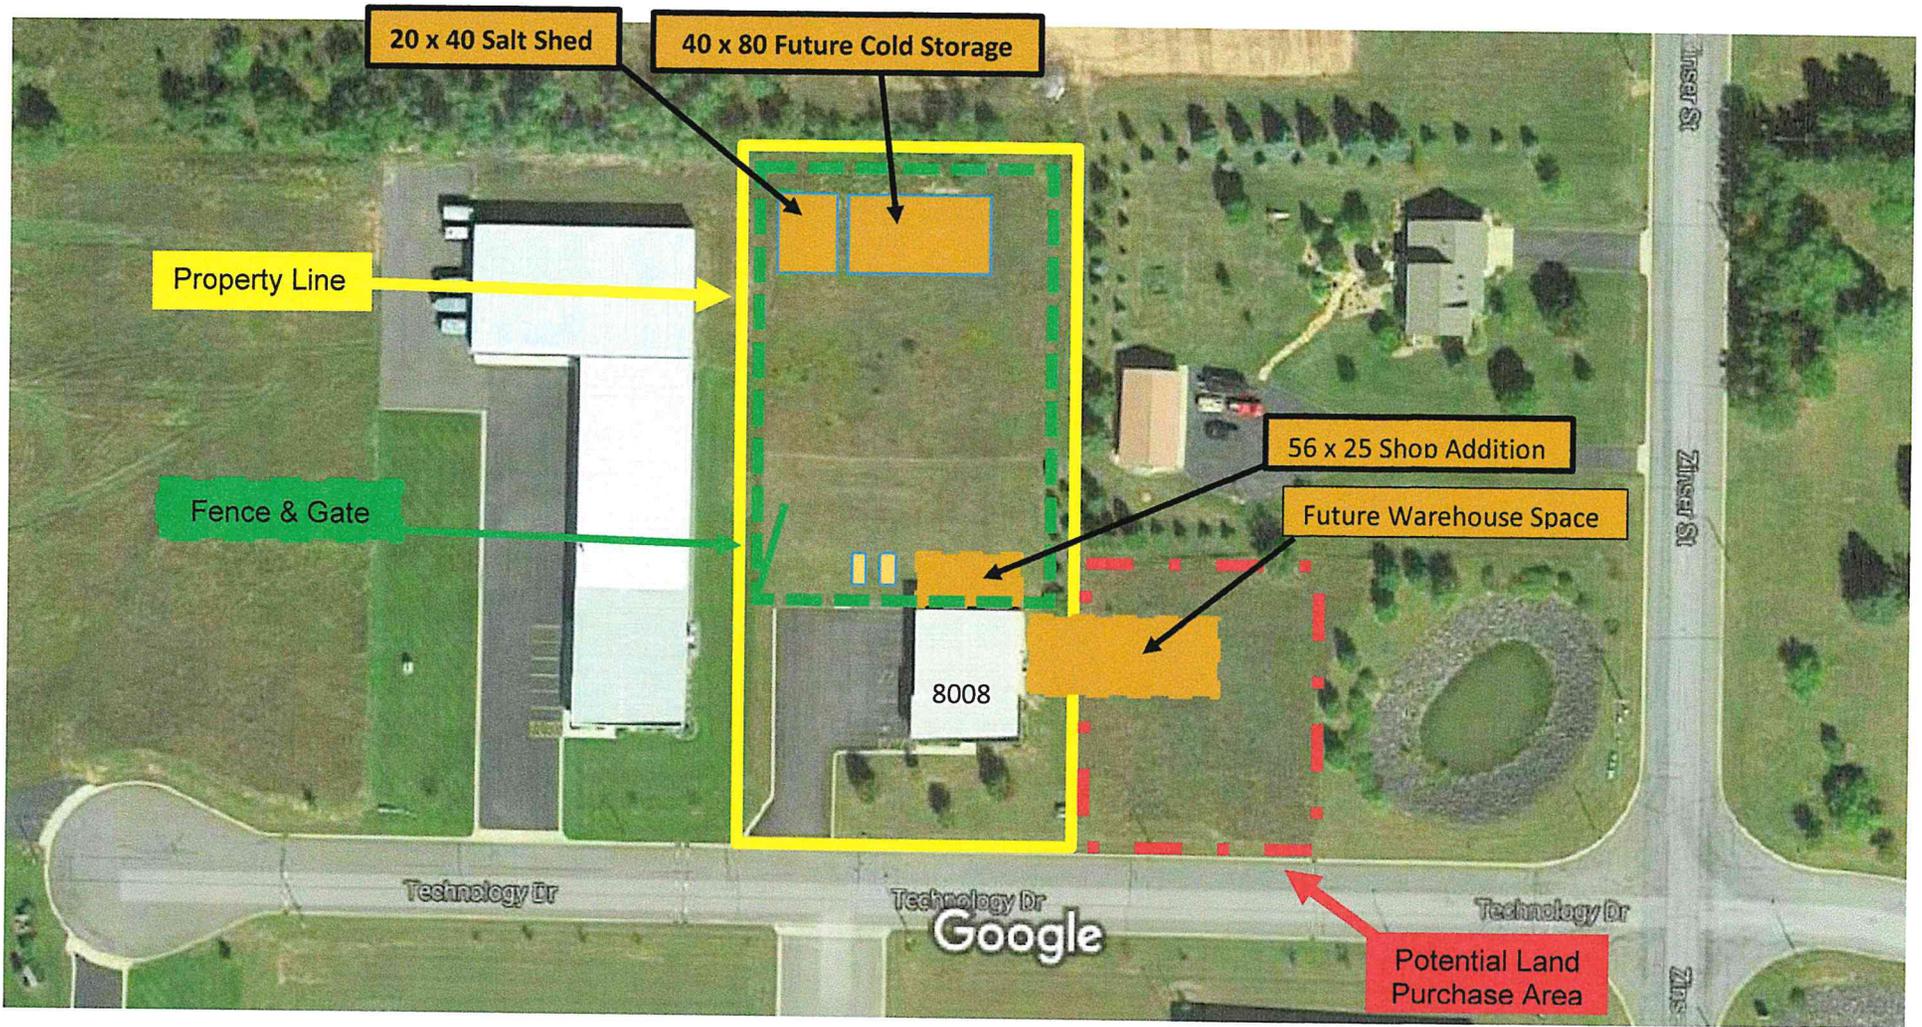

If successful with the zoning change the Buyer would be able to construct a fenced vehicles, equipment and material storage area which is limited or not allowed in the current zoning. Other planned and future improvements are illustrated in the attached documents.

A separate plan for warehousing growth to the east is being considered also but not part of this application.

Mr. Worden has been successful, is growing his company and looks forward to adding his business to the Business Park and the Weston community of which he has been serving customers for some time. His business practice is also dependent on showing a quality appearance and being a good neighbor.

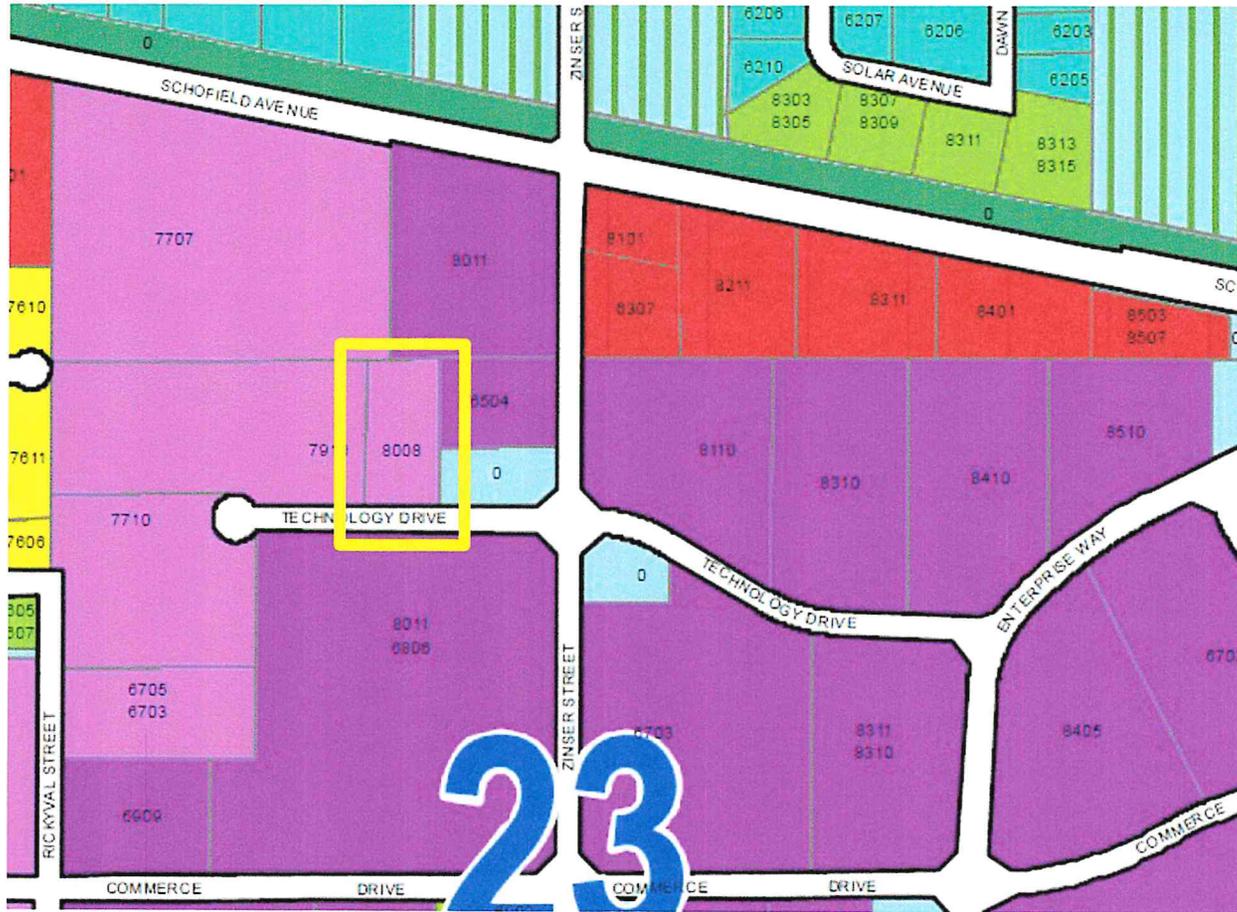

The primary change to the site will be the proposed fenced yard area (per code requirements) for vehicles, equipment and materials, storage. An addition of some shop area to the existing building and we are also working with Jennifer on a potential additional land purchase from the Village on otherwise non performing Village land for a potential warehouse addition.

Please find attached the application, required fee, and illustrations.
